MATT WOODS

STATE HOUSE

Matt Woods is a conservative small businessman who knows that Joe Biden's inflation is hurting families. Matt Woods knows farmers put food on our tables and their hard work boosts our economy. He'll always fight for our farmers.

As our next Republican State Representative, Matt Woods will:

- Ensure Alabama farmers have the tools and resources they need to succeed
- Support efforts to sustain family farms and boost agricultural businesses
- Fight Biden's harmful inflation by making economic development a priority because running his family business - Jasper Auto Sales - has taught him just how much new jobs help improve our economy
